About Me

I'm Dhruv, 20, passionate about creative software and computers since childhood. I've been editing videos since 2020 and have expanded into 3D design with Blender and web development. I don't stop until I'm fully satisfied with my work — every frame, render, and layout is intentional. I'm now ready to take on freelance or entry-level roles in video editing, 3D visualization, or web design.

Tools

Adobe After Effects

Adobe Premiere Pro

Blender 3D

HTML / CSS / JS

Skills

- Motion Graphics
- Color Grading
- Sound Design
- 3D Lighting & Rendering
- 3D Product Visualization
- Environment Design
- Responsive Web Design
- Vercel Deployment

Education

2020 – Present | Video Editing

Self-Taught — Adobe Suite

2022 – Present | 3D Design & Animation

Self-Taught — Blender

2024 – Present | Web Development

Self-Taught — HTML, CSS, JS

Projects & Experience

2020 – Present | Video Editor & Creator

YouTube — @loplo1379

Produced high-energy PUBG gaming montages using After Effects — mastering music sync, action pacing, visual effects, and seamless transitions. Built a real audience through consistent output and iteration.

2022 – Present | 3D Designer & Animator

Freelance — Blender Projects

Designed and rendered a custom 3D intro for a friend using Blender with Mixamo animations, PolygonIQ environment assets, and Cycles rendering. Handled full pipeline: scene assembly, lighting, camera movement, and final export. Also produces 3D visual reels for Instagram (@loplo.ae).

2024 – Present | Web Designer & Developer

3 Live Projects — Vercel

Built and deployed three production websites: **Gurugram Homes Realty** (property listing site with clean layout), **Apex Auto Works** (professional auto services landing page), and **Luna Belle Studio** (aesthetic brand-focused salon site). All built with HTML/CSS/JS and deployed via Vercel.
